

**Single-sided tooting**

T2,5 / T5 / T10 / T20  
 AT3 / AT5 / AT10 / AT20  
 MXL / XL / L / H / XH  
 HTD / STD 5M, 8M, 14M

**Double-sided tooting**

T5DL / T10DL / (T20DL)  
 AT5DL / AT10DL  
 (HDL)

**Polyamide fabric on tooth side "NT"**

T5 / T10 / T20  
 AT5 / AT10 / AT20  
 XL / L / H / XH  
 HTD / STD / RPP

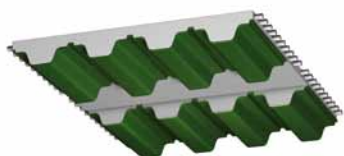

The low coefficient of friction on the tooth side lets the tooting mesh more easily with the pulley, reduces noise and friction on the running surface.

**Polyamide fabric on backside "NB"**

T5 / T10 / T20  
 AT5 / AT10 / AT20  
 XL / L / H / XH  
 HTD / STD

The polyamide fabric increases the sliding properties and is wear resistant.

**Polyamide fabric on both sides "NTB"**

T5 / T10 / T20  
 AT5 / AT10  
 XL / L / H / XH  
 HTD / STD / RPP

T5 / T10 / AT5 available with antistatic fabric.
